

SONY VAIO BZ SERIES 15.4" LAPTOP

VGN-BZ31VT

Even though it's light as a feather, the BZ31VT packs a punch. It's powered by a Core 2 Duo processor, and a huge 4GB RAM, so you'll have no trouble perfecting your productivity. Work with spreadsheets, word documents and presentations all at the same time, without having to worry about your laptop grinding to a halt. Of course, you'll need somewhere to file away all those important documents and spreadsheets so the BZ31VT comes with an enormous 500GB hard drive, giving you more than enough room for all your business essentials. If you've got presentations to prepare then the x-black 15.4" screen and Intel GMA graphics will make sure your eyes are never strained and everything looks visually vibrant. Maybe you want to add some spark to that presentation with some pictures? Well the BZ31VT has Bluetooth so you can transfer anything you need in an instant, and an HDMI port so you can plug in to a TV, giving your presentation some added professionalism.
